 - Vaccination certificate (COVID)
- 2.5. The participation of any athlete and their assistant with diving certification from any recognized diving agency in Portugal is allowed.

3. COMPETITION PROCEDURES

- 3.1. The Organising Committee will hold a detailed briefing about the competition during the Technical Meeting on Monday 03 October 2022, at Hotel Savoy, Madeira Island.
- 3.2. Following people will take part in the Technical Meeting:
- The Head of the Hosting Organisation,
 - Persons in charge appointed by the Hosting Federation,
 - The Director of the CMAS Visual Commission,
 - The Competitors for both video and photo,
 - The Presidents of the Jury, for photo and video.
- 3.3. The following subjects will be covered in the Technical Meeting:
- Distribution of the teams among the competition zones,
 - Information about the timetable and transport,
 - Safety measures,
 - Organisation of the dives,
 - Technical matters,
 - Handling of the photos and videos,
 - Clarification of the four categories for the photo competition,
 - Clarification of the two categories for a video competition,
 - Details of the Control Committee and the Jury System,
 - Guide-lines for protocol and medal ceremony;
- 3.4. The Open will be held over six days, from 03 to 08 October 2022. Underwater, the competition will be carried out on the 04, 05 and 06 of October 2022, during which the competitors will have three hours each day underwater. The Open Director retains the right to change the competition order and the dive times according to the prevailing conditions. It is advised for the competitors to take the shots (photo and or video) on the first day of the competition for all the categories. Should the second competition day be cancelled, they will have images for all the categories.

3.5. There are four competition zones previewed in the Open. Detailed information about the four zones will be given at the technical meeting. During the three competition days, every competitor must dive once or more times on each of the four zones. It may be necessary to repeat some of the competition areas for weather conditions and/or safety.

3.6. The four competition zones and all technical information will be announced on the

- Official website www.madeiraunderwater.com

- Facebook page <https://www.facebook.com/Madeiraunderwater>

3.7. Competition Zones:

- Wreck Afonso Cerqueira (*)

- Blue Hole

- Garajau (Nature reserve) (*)

- Três Marias

(*) (just on the 4th of October)

3.8. There are four photo contest categories.

3.9. There are two video contest categories.

3.10. The submitted photos and videos will be judged by the Jury.

4. PHOTOS

Contest categories:

Tourism: Photo with underwater and land environment, i.e the photo must contain underwater and land elements. Multiple images can be used to compose the final image, i.e. double exposure or image overlay. Participants can bring a maximum of 5 land images to the dive on the memory card to compose the underwater image. The objective is the best combination of a land motif with an underwater motif in order to promote Madeira Island.

Fish: Fish photography as the main element of photography. It could be a fish or a shoal.

Wide-angle with Diver: Photography of the underwater environment, with fauna and flora and with the harmony of the human element with nature.

Close-up: Detail of any underwater subject, including fish. Macro photography or close-up and detail photography.

- 4.1. The procedures for the selection of photos are according to the present Specific Rules.
- 4.2. Double exposure, image overlay and cropping "in-camera" are allowed.
- 4.3. It is allowed to use the FX or DX function of the cameras before taking the photo.
- 4.4. **Photos not allowed** – Participants are not allowed to submerge artificial objects underwater to be used in their photos. The Control Committee will disqualify those photos. Artificial objects used to enrich the image's quality can be used but must not be seen in the photo, like colour filters (can be used on lights and lenses), strobes mounted or remote etc. The filter (colour paper or else) cannot be seen in the shot. A photo is not disqualified if a remote flash has been used and a part of the flash or its cable appears in the shot because the photographer was not able to hide it properly. It is understood as a condition of interpretation that it was not his intention that his element is a part of the shot. In this case, the jury is free to give high points or not to this photo as they may think that the image is far from being a professional photo. The contest wants to show the natural environment and the beings that inhabit it at its best.
- 4.5. The participant has to make sure that he/she cancels the *copyright* function and any metadata on the camera so that the images sent to the Jury cannot recognize the photographer by the file names or metadata.
- 4.6. At the beginning and the end of both immersions, each day, the participants must take a "control photo" with the judge visible in the frame.
- 4.7. Number of photos is unlimited.
- 4.8. It is not allowed to delete pictures.

5. VIDEOS

Contest categories:

Madeira promotional film: Film should contain land and underwater images, aiming to captivate non-divers to get to know Madeira Islands and its underwater world. Maximum film length is 1'30".

Underwater world film: Film only with images of the underwater world aiming to show the beauty of the underwater nature of Madeira Islands and the interaction of human being with nature. Maximum film length is 1'30".

Both categories can include animations, voice over, music and subtitles. Voice over and subtitles must be in English. It is the author's responsibility to have the authorizations for the use of music and all the necessary elements in order to be exhibited by the organisation.

- 5.1. Procedures for selecting videos are according to the present Specific Rules.
- 5.2. It is mandatory to record the infographics, video images (both under and above water) and photographs that will be used in the project during the days of competition.
The participant will only be able to import into the project the following components that are not created during the editing time (free from copyright and previously registered by the organisation): sound effects, video effects, music, voice-overs and animations.
- 5.3. At the beginning and the end of both immersions, participants must film a "control take" with the Judge visible in the video.
- 5.4. For the non-underwater takes (land takes), the participants can have unlimited time filming. It will be allowed during the days of the Open. The memory card for the non-underwater takes will be different from the cards of the underwater takes. All these cards will be formatted, the date on the camera will be changed and cards will be marked, and a control take will be arranged before the 1st day of the Open.
- 5.5. The non-underwater takes (land-takes) will be downloaded and verified by the Organisation in the editing room before being used and edited by the participants. The deadline for delivery to the Organisation of these takes will be during the first hour of the last day of editing.
- 5.6. The post-production can only be done at the designated area announced by the Organisation and only by the Video Team. Editing done by others will be punished by the disqualification of the team. Competitors must start their project with a clean slate, At the beginning of the post production in the editing room, the timeline of the projects of all the participants will be completely clean and empty.
- 5.7. The Organisation will designate an edit room where the participants will leave their post-production equipment from the first day of the Championship. This room will be open during the Championship days according to a timetable determined by the Organisation. It will remain locked for the rest of the time. It is strictly forbidden to bring or remove editing equipment, including laptops or storage units like external HD or memory cards.
- 5.8. Competitors will work with their editing equipment; the lack of such equipment is not the responsibility of the Organisation.
- 5.9. **Drones** – It is possible to use drones to film on land, however it is mandatory to request the proper authorization to local authorities and to have the European Certification requested by law. Without these two conditions, it is forbidden to fly a drone.

6. PROCEDURES REGARDING MEMORY CARDS

- 6.1. The following procedures apply to competition days:
- 6.1.1. Competitors go to the place designated by the organisation for the control of their cameras.
 - 6.1.2. In the designated area, Competitors should present their cameras and follow the organisation's instructions. Under the direct supervision of a Judge, they will:
 - Change date and time
 - Check that there is only one memory card in each camera
 - Format the cards
 - Seal the cameras
 - 6.1.3. After the camera housing is sealed, it can't be opened. It is not permitted to change the configuration, perform repairs etc. without the direct supervision of a judge. The camera settings, batteries and lenses are changed during the competition dives under the supervision of judges.
 - 6.1.4. Competitors will take their cameras to their assigned boats once the organisation instructs them to.
 - 6.1.5. It is not allowed to use a laptop, a tablet, a mobile phone or any electronic device with transfer capabilities (wifi, Bluetooth, etc.) in the area of the cameras, on the boats or any other place before the delivery of memory cards.
 - 6.1.6. Competitors must make a control image (photo or/and video) in the boat, before entering the water and immediately after leaving the water.
 - 6.1.7. Should a lens or battery needs to be changed between dives or during the dive, this may only be done at a specially designated place, under the direct supervision of one of the judges and without breaking the seal. If the camera needs to be opened to disassemble the lens or replace the battery, the seal can only be broken at this time. Should the seal need to be broken, this may only be done under the direct supervision of a judge. The judge reseals the camera housing with a new seal.
 - 6.1.8. After the two dives of the day, the camera housing is opened in a specially designated place under the Judge's direct supervision. The memory card is delivered to the judge.
 - 6.1.9. Once back at the hotel, the organisation will copy the files on the memory cards to the server. The memory cards are returned to the competitors (see program).

7. USA OF CAMERAS DURING THE OPEN

- 7.1. Competitors may use more than one camera during the competition. All the cameras must be sealed, as described in article 6.
- 7.2. The Photographer or Videographer cannot take more than one camera simultaneously underwater. However, the Competitor may change cameras during the competition time of ninety minutes. Thereunto, the team must come together to the surface, change the camera and return underwater.
- 7.3. Number of photos is unlimited.

7.4. It is not allowed to delete photos/videos.

8. ADDITIONAL SANCTIONS

8.1. Several sanctions will be applied to certain infractions. These sanctions, like other attitudes and behaviours, will be evaluated by the Competition Director.

8.1.1. Not taking the control images before and after each dive: The correspondent dive images will not be accepted.

8.1.2. Not making the safety stop to avoid exceeding the ninety minutes of the dive: The photos that dive will not be accepted.

8.1.3. Breathing from the buddy's air or from the safety bottle on the boat's cable: The dive is disqualified.

8.1.4. Manipulate fauna/flora: Immersion disqualified or even disqualification from the Open if the handling is considered very serious. Additionally, before the dive, the Competitors diving equipment can be inspected at any time to check that no captured specimen is being previously carried or have some kind of equipment to capture sea life. In case of detecting this kind of circumstances, the team will be disqualified from the Open.

8.1.5. Manipulation of the diving computer (falsification of the immersion data, remove it during the dive to not register the maximum depth or change with the buddy's computer) or not to present it at the end of the dive: Disqualification from the Open.

8.1.6. Losing the dive buddy more than 10 minutes: Dive is disqualified.

8.1.7. Manipulating the camera out of the water or at the surface without a Judge's supervision: The dive is disqualified. It is mandatory to notify the Judge to manipulate the camera for any reason.

12. USEFUL INFORMATION AND CLIMA

- Cristiano Ronaldo International Airport of Madeira holds daily international flights practically from all over the world.
- Event will take place in three major venues: Hotel Next, Hotel Savoy Palace and Marina of Funchal.
- The water temperature varies from 25/26°C in the summer to 18°C in the wintertime. In October, expected water temperature is around 21°C/22°C.
- Water is "crystal blue", i.e, amazing visibilities (20-30meters).
- Madeira, an autonomous region of Portugal, is an archipelago of 7 islands off the northwest coast of Africa. It is known for its namesake wine and warm subtropical climate. The main island of Madeira is volcanic, green and steep, with high cliffs, pebble beaches and a blue sea full of life and good visibility.
- For the seventh year in a row, Madeira was elected by World Travel Awards as the Best Island Destination in the World (World's Leading Island Destination 2021), among those considered the "Oscars of tourism".
